

The graph displays 25 nodes, each representing a school, connected by numerous edges. The nodes are color-coded: red for boys' schools, yellow for co-ed schools, and teal for girls' schools. The network is highly interconnected, with many edges between nodes of different colors, indicating a complex network of relationships. The nodes are arranged in a roughly circular pattern, with some nodes at the periphery and others in the center. The edges are thin, grey lines that connect the nodes, forming a dense web of relationships.
