Tertiary Projection

This network visualization displays the relationships between various tertiary education establishments. The nodes represent different institutions, and the edges represent connections or interactions between them. The labels visible include:

- Polytechnic Health Physical Science
- Wananga Social Sci
- vate.Training Establishment Biological Establishment J
- Wananga Technical College Social Sci
- Private Training Establishment Engineering
- Other Tertiary Education Provider Engineering
- College of Education Health Services Comp Sci
- Private Training Establishment Private Technical Establishmen
- University Engineering
- Polytechnic Comp Sci Web Design Health Com
- Private Training Establishment Health Com
- University Social Sci
- University Health

The graph displays a network of school types. The nodes are labeled as follows:

- D03_Boys school
- D09_Junior boys school
- D02_Boys school
- D01_Boys school
- D04_Boys school
- D08_Boys school
- D07_Boys school
- D06_Boys school
- D05_Boys school
- D00_Boys school
- D09_Girls school
- D08_Girls school
- D07_Girls school
- D06_Girls school
- D05_Girls school
- D04_Girls school
- D03_Girls school
- D02_Girls school
- D01_Girls school
- D00_Girls school
- D09_School
- D08_School
- D07_School
- D06_School
- D05_School
- D04_School
- D03_School
- D02_School
- D01_School
- D00_School

The graph shows a dense network of connections between these school types, with a central cluster of nodes and several peripheral nodes connected to the center.
